

DONN[®] Healthcare

Suspension Systems

JUST BECAUSE THE COATING IS STERILE, DOESN'T MEAN THE DESIGN HAS TO BE

Introducing the high-performance Healthcare Coating from USG. Designed specifically for ceilings and suspension systems, this innovation promotes wellness by offering tough antimicrobial protection, while allowing you to choose the ceiling design you want.

Features and Benefits:

- Provides antimicrobial protection in healthcare environments
- Exceeds JIS Z 2801 standard for antimicrobial performance, 3rd party certified
- Capable of withstanding cleaning and/or disinfecting chemicals in accordance with ASTM D5402
- Available on suspension systems certified to meet ISO 14644-1 Class 5
- Available on a broad range of USG suspension systems and metal ceiling tile options.
- Specify with our antimicrobial acoustical ceiling tile option—MARS™ CLIMAPLUS™ Healthcare (exceeds JIS Z 2801 standard)
- Apply in healthcare facilities, restricted and semi-restricted areas, operating theatres, patient rooms, treatment rooms, nurses' stations, waiting rooms, laboratories, cleanroom environments and kitchen/food processing areas

AN ANTIMICROBIAL FORMULA DESIGNED TO ADHERE TO YOUR CEILING DESIGN

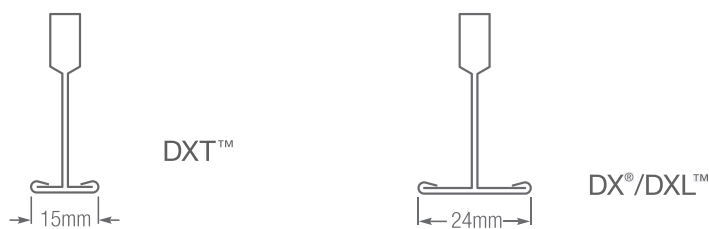

This innovative Healthcare Coating from USG can be applied to both ceiling panels and suspension systems, including the high-performing products below.

Acoustical Ceiling Tile Options

Specify with these ceiling tile options, which also exceed the JIS Z 2801 standard:

- **MARS™ CLIMAPLUS™ Healthcare**
High light reflectance (LR-.89) meets high-recycled content with MARS CLIMAPLUS Healthcare ceiling panels. Requiring fewer light fixtures, these panels lower energy costs while reducing eyestrain. Plus, they're made with 75%-recycled content, so they qualify as a high-recycled content (HRC) product.

Suspension System Options

Metal Ceiling Tile Option

PANZ™ Metal Ceiling Panels combine durability, easy maintenance and sound control with a simple lay-in design that provides 100% access. These panels offer a finished ceiling with crisp architectural detailing at the reveals and a variety of perforation choices provide a distinct look for any space.

LOGIX™ Integrated Ceiling Systems and Accessories

LOGIX Integrated Ceiling Systems are available in a wide range of layouts and feature a portfolio of narrow grid systems, smooth ceiling panel finishes and acoustical and sustainable solutions.

Footnotes:

1. For MARS CLIMAPLUS Healthcare literature, refer to data sheet MH/8-13
2. For PANZ literature, refer to data sheet SC2577.
