

FEATURES AND BENEFITS

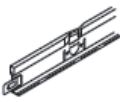

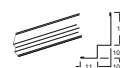

- A slim 14mm (9/16") face with a 3mm (1/8") omega-shaped reveal that softens the effect of grid lines.
- Fully compatible with square-edge and reveal-edge ceiling tile.
- Manufactured to resist both red and white corrosion.
- Patented proprietary QUICK-RELEASE™ cross tees that locks in to minimize movement tolerance.
- Cross tee override-ends resists twisting and give a professional finished look with no exposed steel edges.
- Complies with loading requirements of the Light Duty Classification under ASTM C635.

Profile
